Director's Message

Children are gift of God and that makes every school heavenly. More than a miniature of society, an institution like school holds every skill and strength infused with wisdom to nurture every child with care, love and attention. A child when groomed to be grand, adorned with multiplicity of attributes defining the entire persona, requires exemplary dedication of each and every element associated with him or her.

Education is something literally more than the verbal meaning and the prime need of today is to rise up above the bookish knowledge and inculcate within the child humanitarian values integrity, loyalty, empathy, courage compassion and of course reliability. Much like you, we too believe in all round development of child and to achieve this we need to establish a balance between state of the art infrastructure and nationally acceptable education.

At SRINATH PUBLIC SCHOOL, we provide a platform that facilitate, perfect sprouting and stretching of your child as a true citizen having purity and perseverance of thoughts and actions. The digital classrooms, adequate playing space, library brimming with books of all varieties and the culturing of curricular and co-curricular activities on all occasions of importance, are testimony to this aim of ours.

Standing true and shaping these words to reality, our honest hard work reflects in our students achievement fostered by practical application of every needed and available enhanced infrastructural facility in the institution to create a marked difference between the ordinary and extra ordinary.

Over the year, we have materialized the latest teaching technique ignited by inventive and innovative ideas of teachers moving practically ahead towards our goal of student's holistic development. Gaining and growing every bit to create a mark worth praise, we are vowed to make our students confident and able enough to know themselves and gain decision making skills in all walks of life. We are determined to perform with excellence towards intellectual, physical, moral, social and cultural growth of your child guided strictly by discipline, enabling them to touch the sky.
